

Max-Atlas International Inc. **A Leading North American Chassis Manufacturer**

For more than 30 years, Max-Atlas has been helping transportation and intermodal operators maximize uptime with durable, high-performance container chassis. Built with premium North American steel and engineered for demanding conditions, our chassis deliver the reliability, safety and long-term value fleets depend on.

The Standard in Container Chassis

Max-Atlas offers a wide range of chassis models, backed by decades of manufacturing expertise. Our relentless pursuit of excellence and our commitment to our clients' success have driven us to design best-in-class chassis. From urban deliveries to long-haul intermodal routes, every chassis is built with advanced engineering, premium materials and rigorous quality standards, so your fleet performs when it matters most.
