

SACP 3.0 CCM's Chassis Provisioning REvolution

It's the Chassis Provisioning Revolution! As the first next generation utility single provider pool, Consolidated Chassis Management's (CCM) SACP 3.0 represents an evolution in chassis provisioning in the United States, designed to accommodate evolving market dynamics.

CCM's new South Atlantic Chassis Pool has arrived!

SACP 3.0 offers an upgraded fleet of 45,000 new and refurbished chassis, combined with affordable, cost-competitive pricing to all pool users, including truckers, BCOs/NVOs, ocean carriers and other users.

As a utility single provider pool, SACP offers users:

- Capacity
- Interoperability
- Scalability
- Safety
- Reliability
- Cost efficiency
- Premium service

SACP 3.0 will be one of the largest fully interoperable chassis pools in the U.S with a vast network of 75 locations in 5 states including Alabama, Florida, Georgia, North Carolina and South Carolina.

"CCM is committed to providing the intermodal community in the South Atlantic with the tools and resources necessary to ensure a smooth chassis provisioning experience," said Mike Wilson, CEO of CCM. "SACP 3.0 represents an evolution in chassis provisioning in the United States. Agile and scalable, the new model is designed to meet the ever-changing needs of our customers in the region."

The new chassis are available to motor carriers that register on the new onboarding portal. The portal offers a simple registration process offering access to CCM's new and like new refurbished chassis over a vast network of 75 locations throughout the South Atlantic region. To register, please visit the CCM website at ccmpool.com/sacp3.0/. Motor carriers will be able to reserve chassis through CCMShipments.com. BCOs can also register by contacting sacp3.0info@ccmpool.com.

SACP 3.0 is established cooperatively by The Ocean Carrier Equipment Management Association (OCEMA), Georgia Ports Authority (GPA), Jacksonville Port Authority (JaxPort), North Carolina State Ports Authority (NC Ports) and Consolidated Chassis Management LLC (CCM).
